

SACHIN GAUTAM

Cybersecurity Analyst | SOC Operations & Threat Hunting

Kathmandu, Nepal | sachingautam0b@gmail.com

[GitHub](#) | [LinkedIn](#) | sachin01.com.np

PROFESSIONAL SUMMARY

SOC analyst and final-year BScIT student with experience monitoring alerts and investigating security incidents at Cryptogen Nepal. Works with SIEM tools to review logs and improve detection rules. Uses MITRE ATT&CK for threat hunting and has experience in vulnerability assessment, OSINT and digital forensics. Builds security tools and writes clear reports with practical recommendations.

SKILLS

Security operations Security monitoring, alert triage, incident response, threat hunting, log correlation and detection tuning

SIEM platforms LogPoint, FortiSIEM and LogRhythm

Frameworks MITRE ATT&CK and Cyber Kill Chain

Security tools Nmap, Metasploit, Kali Linux and Wireshark

Threat analysis OSINT, phishing investigations, domain and IP checks and digital forensics

Networking TCP/IP, DNS, HTTP, packet analysis and Active Directory

Programming and cloud Python, Bash, JavaScript and AWS Cloud Practitioner training

LANGUAGES

Nepali, Hindi and English

PROFESSIONAL EXPERIENCE

Associate SOC Analyst

Cryptogen Nepal Pvt. Ltd. | Kathmandu, Nepal

Aug 2025 to Mar 2026

- Monitored and triaged alerts for multiple clients in a 24/7 SOC
- Built and tuned detection rules and dashboards to improve threat detection
- Checked log collection across systems, applications and endpoints
- Investigated incidents and gathered evidence to help teams contain threats
- Hunted for suspicious activity using MITRE ATT&CK
- Documented findings and helped improve SOC playbooks and workflows
- Trained new analysts on team processes
- Wrote security reports with clear recommendations

SOC Analyst Intern

Cryptogen Nepal Pvt. Ltd. | Kathmandu, Nepal

Jun 2025 to Jul 2025

- Supported live SIEM monitoring and alert analysis for multiple clients
- Investigated phishing campaigns and suspicious domains and IP addresses using OSINT
- Connected related log events and helped assess security alerts
- Assisted with threat hunting and digital forensics investigations

Cybersecurity Intern

Hack Secure | Remote, India

Apr 2025 to May 2025

- Scanned lab networks for vulnerabilities using Nmap and Metasploit
- Took part in simulated penetration tests to identify gaps in security controls
- Reported vulnerabilities with their impact and recommended fixes

TECHNICAL PROJECTS ACHIEVEMENTS AND CONTRIBUTIONS CERTIFICATIONS AND TRAINING EDUCATION	OSINT Digital Footprint Tracker - Built a tool that runs locally to gather information from a username, email, phone number or photo - Checks usernames on 75 platforms and combines breach signals, phone carrier details and photo EXIF metadata in one report github.com/sachin0091/osint-digital-footprint-tracker Malicious IP Analyzer - Built a web app that checks IP reputation through AbuseIPDB and adds WHOIS details - Helps analysts review suspicious IP addresses during alert triage github.com/sachin0091/MaliciousIPAnalyser Phishing Website Detector - Built a command-line tool to check webpages for signs of phishing - Checks for fake login forms, brand impersonation, hidden iframes and sites hosted on IP addresses github.com/sachin0091/phishing-website-detector Network Port Scanner - Built a TCP scanner that checks multiple ports at once to support network audits - Identifies services including SSH, HTTP, HTTPS, MySQL and RDP github.com/sachin0091/network-port-scanner - Found and reported vulnerabilities in a local web platform including unauthorized access issues and recommended fixes - Reported an online scam to the Cyber Bureau which helped authorities catch the person responsible - Active in a cybersecurity club focused on dark web monitoring and reporting data leaks - Regularly take part in CTF challenges on TryHackMe and Blue Team Labs Online with strong rankings - Fortinet Certified Fundamentals Cybersecurity Fortinet Jul 2025 - Ethical Hacker Cisco Networking Academy Sep 2024 - Cyber Threat Management Cisco Networking Academy Sep 2024 - ISO/IEC 27001:2022 Information Security Associate SkillFront 2024 - AWS Cloud Quest: Cloud Practitioner Amazon Web Services Feb 2025 BScIT Bachelor of Science in Information Technology Presidential Graduate School, Baneshwor, Kathmandu Jul 2022 to Present In progress +2 Science with Computer Science Little Angels College, Hattiban, Lalitpur 2020 to 2022 Secondary Education Examination SEE Bardiya Academy and Polytechnic Research Centre, Bardiya 2010 to 2020
